# Data-Driven Innovation Starts with a Modern Operations Environment

Unleash the power of your data with an agile and unified cloud experience from HPE GreenLake and Evolving Solutions.

Creating value from your data is difficult when you have a fragmented and complex operations environment. IT organizations may deal with challenges including:

**WORKLOADS** 

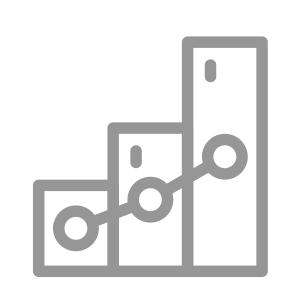

**VIRTUAL MACHINES** (VMs)

**MULTIPLE DATA CENTERS** 

PUBLIC, PRIVATE, AND **HYBRID CLOUDS** 

**APPLICATIONS** WITH COMPLEX **DEPENDENCIES** 

Operating enterprise workloads across these varied environments can be a time-consuming, error-prone, and manual process which can impede data-driven innovation.

# Simplify your infrastructure operations and build a self-service cloud on demand when you need it and where you need it.

HPE GreenLake for HCI helps eliminate complexity with a unified cloud service that enables you to easily deploy, manage, upgrade, and optimize your VMs and infrastructure from anywhere around the globe. You gain the self-serve agility you're looking for with an automated cloud experience.

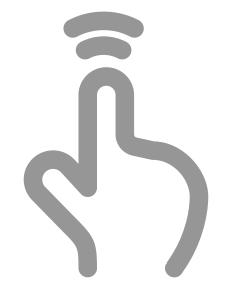

### **FASTER TIME TO VALUE** with everything you

need at your fingertips

# **ONE-STOP MANAGEMENT**

enabled from a single, global dashboard to give you control

# **SELF-SERVICE AS-A-SERVICE**

EXPERIENCE with flexible, on-demand consumption and no heavy up-front costs

With a simplified experience for data infrastructure, you can reduce operating costs and optimize resource utilization, giving you the time to focus on higher-value strategic initiatives.

# TOTAL ECONOMIC IMPACT OF HPE GREENLAKE

Time 80%

shorter time to deploy IT projects with capacity on demand<sup>1</sup>

Risk 85%

less unplanned downtime with AIOps capabilities and management expertise<sup>2</sup>

Cost 45%

lower TCO for infrastructure by eliminating overprovisioning<sup>3</sup>

**Simplify IT** 65%

operational savings by freeing up IT resource to more strategic initiatives

Realize the full potential of your data with a modernized operations environment.

Learn more about HPE GreenLake for HCI, the service that enables a self-service experience with cloud operational agility.
